

Fans With Polypropylene Blades

Fast "Off the Shelf" Delivery

JMC Ventilation/Refrigeration, LLC believes that our fans offer the highest quality at the most competitive price in the industry. Fans are fabricated at our facility; quality is assured by our rigorous inspection program. JMC VR propeller fans feature heavy gauge steel venture with a .375 inch thick motor mounting plate. The one piece weldment is hot dipped galvanized insuring corrosion resistance and long service life.

Many choices of propellers are available. From one piece cast aluminum to modern injection molded engineered thermoplastic with adjustable pitch blades. Propellers of the 21st century offer a lower moment of inertia resulting in less bearing wear and a longer motor life.

Fan performance tests are carried out according to methods described in ANSI/AMCA 210-99 (ISO 5801, DIN 24163).

When you think ventilation...think JMC Ventilation! Call today for details.
